**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My name is Kym Troye. My family of 7 have resided in our current single story residence since 2007. In which time we have teetered between internet companies such as AT&T and Comcast. Very frustrating and discouraging. Their connectivity and services have created unproductivity with our time management. The internet/WiFi that either of those companies have had in our home have not been conducive to our living. Their abilities are very limiting to our layout of our home, life style and needs. Sonic became available in our neighborhood a few years ago. Since then our expectations through Sonics promotions and advertisements have been meet. In the United States mental health is on the rise. There are many different contributing factors. The stress of not having the RIGHT internet/WiFi ability choices for ones location most definitely can aid in ones stress levels. From school age students whom which teachers assigned homework online to a professional whom works at anytime from any location.

I hope you consider to allow different options amoung us consumers that are not at the corporate level. I also ask that including Sonic be regulated with cost increases.

Thank you,

Kymberlea Troye
